

I, James Thomas Evans, 3/21/51 birthdate DeKalb, Illinois am:

Declaring under penalty of perjury under the laws of the state of Washington that the foregoing is true and correct

I apologize to the courts - I had intended to be here but have an elderly woman that I care for in need of physician-related appointments during the time period I would be away addressing this court-related matter.

I wish to affidavit - some personal comments made by Lin O'Dell over the years. I will make this brief and to the point

*Summer - year 2010. While my ex-wife was still in residence at Northport, Washington. Atty O'Dell called me personally to ask if I would be willing to work with her in the removal of both Paula's dogs and Paula herself from the Northport property.

In no less words I told O'Dell that I was in no way interested in a scheme to screw my ex-wifes life up.

*Saturday, September 14th 2013. Lin O'Dell visited my residence with her husband Mark O'Dell. They were here for sometime in complaint of a non-compliance on Paula's part before Paula herself arrived. During that time a number of subjects were brought up - including Lin confessing and almost seeming to either be complaining or bragging that it was her herself that arranged thru local Northport citizens to have the dogs that were running shot and killed. I believe that was a minimum of 4. Her husband, Mark - spoke to me personally about how much he would like to own Paula's house (apparently considered property of 'The Trust'. He went as far as to comment on how he would use floor space heaters to supplement the wood heating source.

Shortly after those discussions were heard - a vehicle pulled up - It was my ex-wife Paula Fowler (I guess Johnson Now). She was concerned that she would be refused her deposit due the next day on Sept 15th. A brief feud between her and the O'Dells occurred before she retreated to her vehicle in haste and locked everything. I was within just a few feet of Lin O'Dell and heard her threats... She had intentions of cutting her off from her Tedra Funds, shipping her as far away as possible (I believe from what I now know, Florida) for 90 days and no less, get rid of her 3 dogs, change her locks and sell her house in her absence and force her into assisted living upon her return here to Idaho. I was only a few steps away and witnessed these threats word for word.

James Thomas Evans December 29th 2013
