A New Voice For Snohomish County

Thanks for visiting my campaign website!

My name is Marcus Barton and I would be honored to serve as your representative on the Snohomish County Council.

Before seeking office, I served in the United States Army as a supply and logistics clerk. I currently work as a Logistics Manager for a recycling company.

One of my many strengths is the ability to manage multiple tasks at once and the military trained me to prioritize. I have always been the person that was called when a solution could not be found. I want to bring my unique eye for detail and ability to problem solve to the council.

I come from a long line of veterans and civil servants whose sole purpose in life was to serve the country and the community. It is this feeling of selfless service that was instilled upon me that helped me to decide to enter the race for Snohomish County Council so that I could continue to serve the members of this community. There are so many problems that I noticed that I am sure others have noticed too. I think I have the skills and desire to find the solutions to these problems.

This is my first political campaign, however I feel that I have the skill set and passion to serve my community.

Our communities are not being properly represented. Your voice on the county council has been replaced with that of a career politician.

I want to bring your opinions back to the council. I will bring integrity, honesty and accountability back to local politics.

I want to find solutions to these problems, and I look forward to learning how I can better serve you.

Please like our Facebook page so we can keep you up to date on upcoming events.

Ruck The Vote!

The ability to vote is one of the most powerful rights that every citizen has. However, a lot of people abdicate their right to whomever shows up on election day. While I would like for people to vote for me, my greater wish is that people would be educated about issues at hand and get out and vote regardless of political affiliation.

To raise awareness that there is an upcoming election with many important races and issues to be decided this November, I am going to lace up my boots, put on a ruck and march in two separate events.

Sept 23rd I will road march from Miners Corner Park in Bothell to Veterans Memorial Park in Mountlake Terrace! (over 8 miles!)

Sept 30th I will be road marching from Bothell Landing Park to Hauge Homestead Park (over 9 miles!)

Be sure to wave and honk to show your support.

Keep your eyes out for me on the Bothell Everett Highway!

If you see me out there regardless of political affiliation, I think we can all agree that being educated and to exercise our right to vote. So give a wave or a honk and let me know that even in this political climate we can all agree that the right to vote is what's important.

If you would like to join me or contribute, please contact me at vote4barton@gmail.com

Would you vote for \$30 car tab fees?

\$30 Tabs

for cars, trucks, vans, SUVs, motorcycles, motor homes, RVs, 5th wheels, and other vehicles

Ballot Title: Initiative Measure No. 947 concerns motor vehicle taxes and fees. This measure would set annual license fees for certain vehicles at \$30 with exceptions, repeal or limit authority to impose some taxes and charges, and calculate vehicle-taxes using the Kelley Blue Book.

Ballot Measure Summary: This measure would set \$30 annual license fees for motor vehicles weighing under 10,000 pounds, not including electric-vehicle registration fees, future voter-approved charges, and voluntary fees, repeal certain taxes and charges including taxes funding regional transit authorities and ferry service; calculate vehicle taxes using the vehicle's base model Kelley Blue Book value; and require retirement, defeasement, or refinancing of certain regional transit authority bonds repaid with motor vehicle taxes or fees.

Should this measure be enacted into law? Yes ☒ No ☐

I was asked so many times at the Evergreen State Fair about the \$30 car tab initiative and I am glad to say that I support this initiative. The increased car tab fees are becoming a burden on middle and lower income families who are already struggling to get by and now spend hundreds or thousands of dollars just to be able to keep their car legal and on the road so they can get to work or get their kids to school.

This also makes it simple and easy to renew, you know exactly what you are paying before you get there.

This is a smart initiative and local family's will benefit immensely.

Free Signs!

I finally have my second order of signs in and could use some help getting them put up. if you want one for your lawn, or to put in your window, please contact me at

vote4barton@gmail.com.

I am also looking for volunteers to parade with me at the Tour de Terrace. If you are interested please contact me.

Citizens Alliance for Property Rights

The Committee to elect Marcus Barton is proud to announce that the Citizens Alliance for Property Rights has issued a "Good" rating.

Citizens Alliance for Property Rights believes in:

- Presenting a single coordinated voice dedicated to preserving and protecting individual property rights.
- Electing legislators pledged to protect, not destroy, property rights and electing judges pledged to uphold our constitutionally guaranteed right to own and control property.
- Promoting legislation to preserve and protect property rights while opposing excessively burdensome legislation and regulation.
- Reducing the regulatory cost of property ownership.
